*Please note times are approximate.

The mission of the Carbondale Bicycle Pedestrian and Trails Commission is to create a more bicycle and pedestrian friendly community. The commission makes recommendations to the Town Board of Trustees that educate, promote, and develop safe and effective programs and infrastructure to encourage bicycle and pedestrian use.”

Outline for presentations to the Trustees

1. The town has laid out a vision for a less car centric more bike/ped friendly town.

2. A plan provides a road map in for achieving this vision. some themes to explore might be:

- A plan helps guide us in a rapidly changing environment: population, demographics, density, increased traffic, new transit technology.

- A plan frames discussions for why the town is doing things. allows for holistic approach and transparent decision making.

- Allows us to explore options and acknowledges that we do not know all the answers or even the right questions to ask

- would help us explore funding options

3. Research tells us some desired outcomes. Rick and Alex have provided a long list.

- traffic calming
- design standards
- educations programs

4. BPTC recommendation
