DRAINTILE

OVERVIEW:

A permit is required for an installation of drain tile. The current building permit fee is \$60.00.

APPLYING FOR THE PERMIT:

The property owner will need to submit the following information when applying for this permit:

- Complete and submit a building permit application.
- Provide a detailed description of the proposed work.
- Submit a plat of survey that identifies the proposed location of the discharge point of the sump pump or gutter(s). Drain tile must maintain a minimum of 5 feet from the lot line, when not required to tie into the closest storm water structure.
- Contractor registration is required prior to issuance of the permit.
- **Required Inspections:** Drain tile can be encapsulated with stone but cannot be backfilled or covered by concrete until inspected by the Village, additionally a final inspection is required. If the line connects to a storm water structure, Public Works personnel are required to visually inspect the coring patch.
