SOUTH OGDEN CITY APPROVED SHADE TREE LIST FOR PARK STRIP PLANTING

The approved tree list contains species and varieties that are to be considered desirable, long lived, of good appearance, beauty and generally free from injury, insects or disease and are suitable for street planting in South Ogden.

1. A permit is required by South Ogden City before planting or removing any tree from park strip areas. Fines will be imposed for failure to obtain a permit according to South Ogden Ordinance No. 00-17, Section 6:

Section 6. Permit Required:

A. It shall be unlawful to plant, move, disturb or alter any tree or shrub on the City parking/planting strips, parks, or any public property, or to cause such acts to be done by others without first obtaining a written permit from the Parks Superintendent/Urban Forester or his/her assistant. A permit will be issued if in his/her judgment the work is necessary and if the proposed methods of workmanship are satisfactory. Permit for the removal of trees on City property may be issued in accordance with the Urban Forestry Management Plan or with approval of the Urban Forestry Commission, except in emergency situations described in Section 2.D. A permit shall not be required to cultivate and water nor for pruning done by or under the supervision of a licensed arborist. Violation of Section 5A will result in a \$50 fine for the first offense and a \$100 fine for each subsequent offense. The City's Ordinance Enforcement Officer or any South Ogden City Police Officer may issue the Citation.

B. The person applying for a permit requesting to plant a tree/trees or shrubs shall agree in signing the permit, that they will bear full responsibility for the maintenance and care of such as provided in this Ordinance, and that any damage caused to City property by such shall be replaced or repaired by the permittee at their expense.

C. As a condition to issuing any permit to remove any public tree or shrub, the Parks Superintendent/Urban Forester or his/her assistant may require that the permittee plant one or more trees or shrubs in place of the one removed. Whenever any such tree or shrub has been removed or destroyed pursuant to any such conditional permit, and when the permittee as a condition of his permit, is required to make a "replacement" planting, it shall be a misdemeanor for the permittee to fail, refuse, or neglect to plant another tree or shrub or other trees or shrubs of type, size, and at the location specified in the permit, within the time specified by the Parks Superintendent/Urban Forester or his/her assistant from the date of issuance of the permit.

2. The attached tree list is in compliance with Section 9 of the South Ogden City Ordinance 00-17:

Section 9. Official City Tree Planting List:

The official City tree planting list shall be maintained by the Urban Forestry Commission, and shall designate appropriate species of trees for particular planting spaces on City property, including parking/planting strips of specified widths. The official City tree planting list shall be available from the Parks Division.

3. The complete South Ogden City Ordinance 00-17 is available upon request through the South Ogden Parks Division and on the internet at www.southogdencity.com.
