Summary for new business location for Barstow Farms

Our History:

Both Jamie and I started Barstow Farms in 2008 as a small scale hobby farm. Jamie has been owner/operator of Jamie Barstow Building Construction since 2008 and previously worked for his father as a finish carpenter from high school until his fathers death. I, Renee Grover was employed as a 911 Dispatcher for the County of Knox for 16 years. I also worked as a certified nurses assistant in Intensive Care Units, Alzheimers units, Special Care units and long term care units. I have also worked as an emergency medical technician for the Town of Warren per diem, and worked in a human biological specimen laboratory for 5 years at Pen Bay. During college I completed a six month internship at the Office of the Maine State Medical Examiner. Barstow Farms continued to grow and thrive and it became full time so I became a self employed farmer in 2016 while Jamie has maintained his very busy contracting business.

At our farm we raise quality livestock to produce excellent products for consumers to enjoy. We are very diligent to provide the best possible feed and home environment for all of our 250+ animals. We consistently use a USDA processing facility and all products are labelled with a USDA seal and with our farm seal according to state guidelines.

We are currently certified through the State of Maine Department of Agriculture, Conservation and Forestry license number 2-32784 effective June 16,2017 through July 16, 2018 to retail meat prepackaged for direct sale, as a mobile vendor, as a retail food establishment, to retail raw meat and as a wholesale distributor. In time

the due inspection will take place at the store, pending planning board approval, at the farmhouse located at Cider Hill 777 Main St Waldoboro, Me the property that we will be securing to establish the new businesses. We are also full insured through J Edward Knight insurance for liability for our farm products. See attached copy of the State retail license for Barstow Farms, future lease of Cider Hill 777 Main St (pertaining to the farmhouse only), the notice of approval from the current owners of Cider Hill and applicable maps, and J Edward Knight liability insurance.

The Barstow Farms proposed business:

In the main structure, located at 777 Main St Cider Hill Farm, of the first proposed business will occupy the immediate parking lot side of the building. The dimensions for this store will be 24' by 16' and will include a certified commercial kitchen (pending completion of renovations and installation). The main entrance will be located on the parking lot side of the building (A). Exterior lighting will be standard residential entry lights by all doors. There will also be 2-3 residential style motion sensor spot lights located on side B of the building and will only point towards the main structure in question. Also there will be residential style solar garden lights in the garden areas around the building and one solar spot light on the American flag that will be hung from side A of the building and will only point at the flag and building.

Retail space will be 384'. Cider Hill provides 15 parking spaces in the lease. Signage will include a small sign that will hang below the Cider Hill farm sign on Main St, another sign by the entry door approximately 3'x3', a larger simple Barstow Farms sign may also be placed on Side A of the building estimated size 1' by 5' depending on aesthetics to the property.

In addition to selling our farm raised meats we will also be outletting to local resources and farms to offer a wide variety of products to

consumers. We will utilize Maine made products to include honey, maple syrup, vegetables, fruits, crafts to name a few. With the addition of a commercially inspected kitchen we will be able to offer patrons take and bake meals, prepared cold salads, and hot meals on site for take out only. Offered beverages to include coffee, tea, soda and juices. There is no intention to procure a license to sell alcoholic beverages.

Barstow Farms in its new location will be able to provide consumers with a set and reliable store schedule. We are currently looking to be open by early to mid July, dependant on renovations currently being done, and tentatively are looking at a Monday through Friday schedule with tentative hours of 1030-530 pm and no later than 7 pm. We are also considering some special community open suppers to include minimal entertainment (not to exceed the town ordinance regarding noise or time frame) which may be one solo guitar player during dinner and would not be past the above hours of operation.

Not only will we be promoting eating healthy and farm education we will also be adding to the employment field by hiring 2-3 persons to work at the establishment for this business.

Lastly we want to emphasize that we do not feel that the proposed businesses will create an increase in noise level other than in and out vehicle traffic. We will be diligent in the neighbors regards to adhere to every ordinance regarding noise etc and most traffic will cease at the latest 7 pm and earlier in the winter months.

Proposed Business #2

Name to be determined

Our history-

In addition to promoting healthy eating we also champion the use of organic medicines in replacement of chemically made medicines. We are medical marijuana caregivers, and cultivate organic medicines of various types to offer patients that have discussed with a licensed doctor or certified person the best alternative for them. We do not give medical advice, but simply supply legal card holding patients with an alternative path of wellness of their choosing. We have much experience and have successfully helped numerous patients by providing high quality products.

This second business, located in the same building at 777 Main St Cider Hill Farm will be a community wellness retail store specializing in organic CBD (contains NO THC) products that is legal for all patrons to purchase. It will also promote healthy eating education by growing your own food, horticulture education, art, sculpture, clothing, glasswares, oil making education, salve making education, and lotion making education as well. The retail store will have no tangible items containing THC on the retail floor.

This portion of the building is 24' by 15' and will have a separate entrance located on side D of the building towards the lawn area of the facility. Total square footage is 360' and still enough ample parking to support both businesses and Cider Hill patrons. Lighting will be the same residential lighting by the entry door. There may possibly be some

residential style solar garden lights amongst the landscaping.

In addition to the retail store there is a second room located down a short hallway to a 12' by 18' area side C. The total square footage of this room is 216'. This area will be closed off to all persons except for myself, my designee and legal card holding patients after the appropriate paperwork has been filled out that is enforced by the state and the Department of Health and Human Services. This room will have a lock that will require a 4 number PIN and will only be known to myself and a state approved employee. This room will be used a private consultation area with patients and will contain THC products (locked in a cabinet). There will be no THC products left on the property during non working hours. There will be no one allowed in the consultation office without appropriate measures (legal State of Maine medical designation card, appropriate state ID and necessary forms supplied by the state.) We are not a licensed dispensary, we are legal caretakers (See attached credentials). All patient files will be locked in a filing cabinet and all HIPPA rules will apply.

Security for both businesses will be through either Seacoast or Protec Security. Both entrances to the building will have a seperate alarm panel. There will also be video surveillance inside and outside.

In regards to employees I estimate that this business will generate 2 positions for the retail floor. I also foresee less traffic generated than the Barstow Farms store. These hours of operation are also under consideration but tentatively Tuesday through Saturday 11 am to no later than 7 pm and may change seasonally. Again we will certainly make sure that we abide by the ordinances set in place regarding noise etc.

As we are operating under our Maine state caregivers licenses we will also be applying for a Tobacco 1 class license as we offer vaporizers for our patients. No sales of tobacco products will be conducted.
