WHEN
SECONDS
COUNT?

Following these tips will assist Emergency Responders in locating your home or business when seconds count....

Home and Businesses

- Address numbers should be large enough to be clearly seen from the road and set on a background of contrasting color (preferably illuminated or reflective).
- If your address numbers can't be seen from the road, attach numbers to an additional sign and place at the end of your driveway so they are easily seen from both directions.
- Mobile homes and apartments should also be identified with a number.

Mailboxes

- Do not use your mailbox as the only means of identification for your home or business. Mailbox numbers can be confusing, especially if they are grouped together and there are multiple houses in close proximity.
- Put an address sign near your driveway to aid rescuers.
- Mark your mailbox on both sides. Make sure the numbers are in good repair and of contrasting color that can be easily seen.
- Keep snow/ice clear in winter.
