EXHIBIT B: ENACTING NEW CHAPTER 8.18

CHAPTER 8.18 – GROUP B WATER SYSTEMS

8.18.010- Adoption

8.18.020 - General Administration

8.18.030 – Applicability

8.18.040 - Water Quality Testing Requirements

8.18.050 - Granting Waiver

8.18.060 - System Design

8.18.070 - Enforcement

8.18.010- Adoption

Walla Walla County adopts WAC 246-291 in its entirety, as it exists or may be amended, by reference, except where modified in this chapter.

8.18.020 - General Administration

The Walla Walla County Health Department will take on the primary duties of administrating WAC 246-291.

8.18.030 - Applicability

The rules of this chapter do not apply to a Group B system that provides water to one or two service connections, except if the system serves a connection with a use listed under WAC 246-291-010 (62)(a) through (h).

8.18.040 - Water Quality Testing Requirements

An annual bacteria test and a nitrate test once every three years will be required for any water system that is designated as a Group B water system.

8.18.050 - Granting Waiver

Any water system that is requesting a waiver from any portion of WAC 246-291, pursuant to 246-291-060, must have engineering justification to show that no potential contamination to the drinking water well will occur due to the waiver being granted. After receiving all information, the Health Officer will determine if a waiver will be granted. The Health Officer's decision on a waiver is the final decision of the local Board of Health.

If a waiver is granted the water system will have to increase its test frequency to at least annually for the requirement that the water system received a waiver for. For example, if a water system received a waiver for Nitrate treatment, then the water system would have to test for Nitrates on an annual basis.

8.18.060 - System Design

Any water system that is not considered a simple water system as defined in WAC 246-291-120(4)(a-e) will require a Professional Engineer licensed in Washington State to design the system.

This Chapter will be enforced in accordance with RCWs 70.119A.040 and 70.119A.050.

8.32.015 – General Conditions.

A. Any permitted establishment that has an outstanding balance with the Health Department must pay all fees before a renewal permit can be issued. That establishment will not receive a renewal permit until all fees are paid.

B. Miscellaneous Program Fee:

A charge of \$100.00 per hour after the first hour with a minimum charge of \$100.00 will be assessed to any Environmental Health Program that does not have a per hour rate already assigned to it or if work in a program goes beyond what the normal fee covers. For Example: A customer is proposing a new composting facility and review of the application takes five hours instead of three hours. The customer would then be charged for an additional two hours of review time because the permit review fee for a new composting facility gives a three hour allowance for review of the application.
