NOTES:

- 1) **Applicants applying for use of lodging tax funds must provide estimates of how it will result in increases in the number of people traveling for business or pleasure on a trip as required by RCW 67.28.1816.**
- 2) **For state reporting purposes, successful applicants MUST provide information based upon the following. The methodology options are below. PLEASE KEEP THIS INFORMATION IN MIND AS IT MUST BE REPORTED BY GRANT RECIPIENTS IN THE REQUIRED RECAP FORM (TO BE PROVIDED SEPARATELY).**
 - *Direct Count*: Actual number of visitors using methods such as paid admissions or registrations, clicker counts at entry points, vehicle counts, or number of chairs filled. A direct count may also include information collected directly from businesses likely to be affected by an event (such as hotels, restaurants, or tour guides).
 - *Indirect Count*: Estimate based on information related to the number of visitors, such as number of raffle tickets sold, redeemed discount certificates, brochures handed out, police requirements for crowd control, or visual.
 - *Representative Survey*: Information collected directly from individual visitors/participants. A representative survey is a highly structured data collection tool, based on a defined random sample of participants, and the results can be reliably projected to the entire population attending an event and includes a margin of error and confidence level.
 - *Informal Survey*: Information collected directly from individual visitors/participants in a non-random manner that is not representative of all visitors or participants. Informal survey results cannot be projected to the entire visitor population and provide a limited indicator of attendance because not all participants had an equal chance of being included in the survey.
 - *Structured Estimate*: Estimate produced by computing known information related to the event or location. For example, one such estimate was determined by dividing the square footage of the event area by the international building code allowance for persons (3 square feet).
 - *Other*: Please describe and be specific.
