Memo

To: Walla Walla County Commissioners
From: Jim Duncan
Date: 7/24/14
Re: Energy Facilities Site Evaluation Council Funding

I am requesting your authorization to sign a contract with Washington State Military Department Emergency Management Division to receive Energy Facility Site Evaluation Council funds totaling \$21,965.

These funds come from the Energy Facility Site Evaluation Council through the State for the County to pay salaries in support of the radiological emergency preparedness program relating to the Columbia Generating Station nuclear power plant.

No matching funds are required. This is a reimbursement grant for which we receive annually.

Sincerely,

/s/

JIM DUNCAN
Director, Emergency Management

Re: Department Update

Issues for the Board.

None

Components (Main infrastructure)

Hardware

•

Software

- No issues

Security/Viruses

- No issues

Network

- Remote Access Test – licensing and configuration courtesy of Community health grant –
 - Will need more licensing – < \$3000.00 Estimate – replaces a server (Appliance) – Est savings \$2000.00
- Testing BOTNET traffic filter- stops inbound botnets and identifies rogue outbound traffic and its source – **Definition of BOTNET follows update.**
 - Currently we are adding a lot of IP Addresses to block.
 - BOTNET traffic filter automatically checks IP Addresses from a common database.
 - BOTNET could be a Zero Day exploit - always a risk no matter what we do. **Definition of ZERO DAY follows update.**

Other Projects

- **Budget /Assets**
 - Basically done pending news on what JCDA will be doing.
 - May have update to include costs if they return to the county.
- **Technology Refresh**
 - Working on a plan to replace PC's and Laptops and some servers.
 - Ordered the first 25 PC's
 - Once deployed, we will order more
- **Assessor/Treasurer software upgrade**
 - Vendor is working on some items that still need to be delivered
 - There are some key items they need to finish.
 - Treasurer piece is complete
 - Assessor advises that TA is working to resolve the final issues

- **Walla Walla County Policy on Information Technology and Use of Resources**
 - I have an edited version to review
 - Now getting some new Criminal Justice Information System (CJIS) security information
- **Fairgrounds**
 - Updated some machines to Office 2010
 - Move Corey to the corporate Exchange email after a glitch in her old email method caused issues that basically prevented her from sending/receiving email
- **Superior Court 1-2 Updates**
 - Four Projects
 - (1) Audio/Dictation/Recording
 - a. I have the requirements
 - (2) Sound reinforcement
 - a. Met with EVCO to get Sound and Video wiring requirements
 - b. Waiting for a judge to return from vacation to get consensus on the number of cameras in the courtrooms, then we move ahead with the first stage which is to prep power and stage low voltage wiring
 - (3) Projection system – Met with WSP on possible Video Arraignment Solution
 - a. EVCO is to set up a local onsite visit to see some new projection technology
 - b. Still being installed at one of the High Schools
 - (4) Working with WS Penitentiary on remote video conferencing
 - a. Looking at a low cost solution
 - b. Visual recording –
 - First part of this project will stage the wiring for video feeds
- **Public Record Requests Last 2 Weeks**
 - 6 = Requests received
 - 4 = Went the departments
 - 5 = Completed
 - 3 = Total Open
 - 1 = Being handled by the PRO
 - Records Retention Training – being developed as time allows
 - No update on the progress

Have 1 fairly large request that will involve all departments.
- **Internet Connection**
 - The new Clerks statewide system will require more bandwidth in the future
 - Right now we have to use the state's connection, which will be too slow for what the new statewide system will require
 - Provided some information to the commissioners regarding the issues and potential cost liability.

Definition – Botnet

Botnet is the generic name given to any collection of compromised PCs controlled by an attacker remotely. Botnets generally are created by a specific attacker or small group of attackers using one piece of malware to infect a large number of machines. The individual PCs that are part of a botnet often are called “bots” or “zombies” and there is no minimum size for a group of PCs to be called a botnet. Smaller botnets can be in the hundreds or low thousands of infected machines, while larger ones can run into the millions of PCs.

Definition – Zero Day

Zero-Day is an exploit that takes advantage of a security vulnerability on the same day that the vulnerability becomes publicly or generally known. Zero-Day refers to the number of days that security professionals have had to create patches for the exploit or create pattern files for scanning software to detect and/or eliminate the threat.
